SKILLS

LANGUAGES

C, C++, Java, Python, JavaScript, HTML/CSS

DATABASES

MySQL, Oracle SQL, MongoDB

SYSTEMS & OS

Linux internals, POSIX threads & IPC, process sync, shell scripting

ML & TOOLS

scikit-learn, XGBoost, Pandas/NumPy, JavaFX, Wireshark, Git/GitHub

CORE CS

DSA, OOP, DBMS, OS, Networks, AI/ML, Cyber Security

STRENGTHS

Leadership, communication, teamwork, public speaking, mentoring

CERTIFICATIONS

Linux on IBM LinuxONE

IBM SkillsBuild · 2026

Integrating with Structured Databases

IBM SkillsBuild · 2026

Data Fundamentals

IBM SkillsBuild · 2025

Fundamentals of Java Programming

Board Infinity / Coursera · 2025

ACHIEVEMENTS

- **2× National-level Table Tennis** player; captained MIT's team to multiple titles.
- **Professional Bharatanatyam dancer** — represented Aonla twice (scholarship awarded).
- **Class X Merit Scholarship** from IFFCO for academic excellence.
- **NTSE Stage I — 150/200** (cleared cut-off); strong KVPY score.

INTERESTS

AI/ML · Cyber Security · Quantum Computing · Quantitative Finance · Competitive Programming · Chess · Reading · 19th–20th-Century History

Shivansh Malik

COMPUTER SCIENCE UNDERGRADUATE · CYBER SECURITY

Building intelligent, security-minded systems end to end.

PROFILE

Cyber Security-focused Computer Science undergraduate (CGPA 8.42/10) who designs and ships intelligent, security-minded systems end to end — from ML-driven intrusion detection to predictive healthcare and database-backed platforms. Strong in data structures & algorithms, AI/ML, computer networks, and operating systems, with curiosity spanning probability, quantitative finance, and quantum computing. A national-level athlete and club lead who brings discipline, clear communication, and initiative to every team.

EDUCATION

Manipal Institute of Technology, MAHE

2024 – 2028

B.Tech in Computer Science & Engineering — Cyber Security

CGPA 8.42 / 10 · Third Year · Bengaluru

Coursework: Operating Systems · DBMS · Design & Analysis of Algorithms · Computer Networks · Artificial Intelligence · Probability & Statistics

Woodrow Senior Secondary School

2023

CBSE · Class XII (Senior Secondary) · 83% · Bareilly, UP

Kendriya Vidyalaya, IFFCO — Aonla

2021

CBSE · Class X (Secondary) · 94% · Bareilly, UP

PROJECTS

Intrusion Detection System — ML on NSL-KDD

Apr 2026 – Present

Research Project · under Dr. Sanket Misra

- Built a modular, end-to-end ML pipeline flagging malicious traffic on the NSL-KDD benchmark (41 features; binary & 5-class — Normal/DoS/Probe/R2L/U2R).
- Countered severe class imbalance with SMOTE; compared correlation, ANOVA-SelectKBest, and Random-Forest feature selection.
- Benchmarked six classifiers, then auto-selected and serialized the strongest model (~78% macro-F1) for deployment.

STACK Python · scikit-learn · XGBoost · imbalanced-learn · Pandas

MedPredict — ML Symptom Checker & Hospital Locator

Dec 2025 – Apr 2026

- Built a Random-Forest engine that predicts likely conditions from reported symptoms, served through an interactive JavaFX desktop app.
- Integrated GPS geolocation to rank the nearest hospitals for the predicted condition — owned the full pipeline, model, and GUI end to end.

STACK Java · JavaFX · Random Forest · Geolocation

Concurrency-Safe Ticket Booking System

Dec 2025 – Apr 2026

DBMS Lab Project · Team of 6

- Designed a normalized MySQL platform for high-demand event ticketing with a fully transactional booking workflow.
- Built conflict-resolution with transaction isolation and atomic seat reservation — preventing seat double-booking under concurrent load.

STACK MySQL · SQL · Transactions & Concurrency Control

EXPERIENCE & LEADERSHIP

Educational Lead — Quantus, Quantum Computing Club

MIT Bengaluru

- Lead educational outreach for a flagship technical club — design and teach quantum-computing sessions for juniors, and help run events and workshops.

Captain — Table Tennis Team

MIT Bengaluru

- Captain the institute squad — leading training, selection, and match strategy — to multiple tournament wins.

Member — Codex, Coding Club

MIT Bengaluru

- Sharpen data structures & algorithms with regular LeetCode problem-solving; compete in hackathons and competitive-programming contests.
